

# Barrier FS

## Temporary Patching Paste

Product Code:

**IRRITANT**

Barrier FS is suitable for use in food and beverage processing facilities, including federally inspected meat and poultry plants.

Barrier FS is a quat-based paste form cleaner used to temporarily fill cracks, holes and other possible voids in floors and drains that exist in food processing or cold storage facilities. The application of Barrier FS paste to these areas limits water and product debris accumulation during production. The presence or absence of the bright fluorescent pink color aids in determining the frequency needed for treatment and reapplication Barrier FS.

### USAGE DIRECTIONS

- Barrier FS should be spread into the cracks, holes and voids with tools dedicated for each specific surface type (i.e. Floors, walls, drains or structure).
- Apply uniformly, filling the cracks, holes or voids with the “pink paste”.
- Applying Barrier FS when the least amount of water is present, will allow the paste to slightly harden allowing for a longer adherence to the crack, hole or void.
- Re-application is advised if the hole, crack or void no longer shows visible pink residual paste in the space.
- Product may separate during transit and storage, mix thoroughly before use.

### SAFETY AND HAZARDS

**Hazard Statements:** Causes mild skin irritation, causes eye irritation.

**Precautionary Statements: Response**

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if easy to do. Continue rinsing.

**IF ON SKIN:** Wash with soap and water.

**PRODUCT CLASS:** Industrial Cleaning Compound

**Storage:**

Store in a cool dry well-ventilated place away from heat, cold, sources of ignition, strong oxidizing agents and acids.

**Disposal:**

Dispose of contents in accordance with local/regional/national regulations.

### PROTECTIVE EQUIPMENT

**Precautionary Statements: Prevention**

Wear eye protection. Wear gloves when contacting spray directly.

# Barrier FS

UN Number: Not Regulated

Product Code:

**IRRITANT**

## DILUTION CHART

### Application

Apply as needed to fill cracks and holes in non-food contact surfaces and drains.

## TECHNICAL INFORMATION

Form..... Goupy liquid/paste  
Color ..... Bright Pink  
Odor..... Mild  
pH @ 1%..... 8 -10  
Foam ..... None  
Biodegradable ..... Partial  
Phosphates..... Proprietary  
Density ..... 1.5
