

Maximize Your Biosecurity System With D7™

Introducing D7, A Patented and Proven Broad-Spectrum Disinfectant, Cleaner and Deodorizer.

D7 is a proprietary blend of ordinary household substances that kills *Pseudomonas aeruginosa*, *Salmonella enterica*, and *Staphylococcus aureus* and helps reduce cross-contamination on treated surfaces. Validated by multiple third party organizations, D7 is a proven broad-spectrum disinfectant that will enhance and maximize the effectiveness of your biosecurity program.

Multi-Purpose
Detergent, Disinfectant
and Bactericide

Complete Inactivation of
P. aeruginosa, *S.*
enterica, and *S. aureus*

Non-Flammable

Helps Reduce Cross-
Contamination on hard
surfaces

Versatile application
methods. Can be
foamed, pressure
sprayed, mopped or
soaked

Powerful and
Efficacious

**D7 was validated
by independent
third party GLP
laboratories, university
studies, and federal
government agencies.**

Ordinary Substances • Patented Formula • Unrivaed Results

D7's patented, multi-part aqueous formulation of ordinary household substances consists of up to three blended components:

Part 1: A Surfactant (Quaternary Ammonium Compound)

Part 2: An Oxidizer (Hydrogen Peroxide)

Part 3: An Accelerator

Once blended on site, the D7 solution becomes an unrivaed anti-microbial disinfectant and bactericidal. Effectively cleaning and disinfecting hard non-porous surfaces

50 Gallon Drum Kit

250 Gallon Tote Kit

Foam or Spraying

- Effective on Hard Non-Porous Surfaces
- Suitable for Processing Equipment
- Available in 1, 15, 50 Gallon Drums and 250 Gallon Totes
- Applied via Foam or Pressure Spraying
